HARRISON'S PERISTALLIC LÖZENGES;

PPROVED REMEDY FOR COSTIVERESS AND DYSPERS "His medicine's not put forth as a universal nostrum, calculated to cure all the diseases unbeatthy settings of the stomach and howels or live e., inducing as a natural consequence indigestion and its results, such as head ache acidity of the stomach, heart burn, flatulency, nausea lowness of spirits jaundice and a whole catalogue of other complaints, which may be entirely removed by a timely and persevering use of this remedy.

The must engent objection to Aperients in general is, iliar containing some drastic purgative they leave, after their operation has ceased a torpidity on suferentes you misore els Abelina a samore beil to which their administration was intended to correct Such effects will not follow the use of these Loz

ro femalesin delicate health The Peristaltic-Lozenges are strongly recom-mended to the notice of every Lady, having obtained the sunction and approbation of several eminent gentlemen of the Medical Profession, as a vale and valuable medicine in removing obstruc tions and relieving all other inconveniences to which the female frame is hable especially those which arise at an early period of life from want of exercise and general debility of the system They create an appetite, correct indigestion re-move giddiness and nervous head ache, and are enunently useful in winds disorders pairs in the stomach shortness of breath and uninitation of the heart. Being perfectly un ocent they can betaken at any time and under any circumstances House, on the Corner of Charles and most delicate female, when an a set ent is required thomas Streets, now occupied by G.B. may have recourse to them and they will act as a Moody. Esq with a good Stable Chaise House preventive against these nervous and hysterical affections which so frequently arise from continued constipation. TO SEAFARING PEOPLE AND TRAVEL-

LERS GENERALLY. To individuals 'ravelling, more particularly seafaring persons when from change of habit or ch mate, the liver and bowels become inscrive and costivenessfollows as an invariable result, these Lozenges will prove invaluable One individual 'I consider myself cured of costiveness to which I was always subject the moment I left the land solely by the use of your medicing. ' proprietor is continually receiving orders from his seniaring friends for the Lozenges When they are to be carried to sea, they ought always to be staited from the box in which they are packed and put into tight bottles. In this way they may be kept good for any length of time

The proprietor offers them as a cure for nervous head ache and general neuralgic affections Very remarkable cures neight be published if thought ne

Mr Milhan, the agent in New York, writes I think it no longer necessary to advertise to the exioni, as heretufore, the Lozenges are now well I am daily receiving the most satisfactory accounts of them, and I shall always recommend them to my customers "

The very questionable reputation which a medime derives from the fashionable practice of publishing a long list of certificates from peroper whom nobody knows has induced the propertor to Trim perigner orego the opportunity of offering to the finblic the many commendations which he is daily receiving of these Lozenges, trusting rather to their own mer its, which will be apparent to all on trial and the respectability of his numerous agents
These Lozedges have been in use for two years

he gentral approbation they have met with from our first families, establishes their merits and makes urther remarks unnecessary. They are packed in buxes which hisy be carried in the pocket and sold at fifty cents per box

For sale in Bangur, by George W Holden and Whittier & Guild. Eastport, John Beckford Hallowell, Samuel Adams and F Scummon Augusta, Tappan & Ladd. Girdiner, A T Perkins Port.

At the same places as the above, may be had HARRISON'S PILE REMEDY,

Warranted as specific in all cases Hemorrhoids, or the Piles are occasioned by ha bitual costiveness plethora, hard riding on horse-back and not unfrequently by the use of aloctic purgatives. The popular nostrum known as 'Veg-etable Pills,' Universal Pills' and the like are highly injurious when taken for a long time, being composed chiefly of aloes, which ought never to be taken by persons subject to Piles

This complaint is not necessarily and of itself mmediately dangerous, in fact in some instances it may be considered as a salutary evacuation, especially in plethoric or full blooded persons - but when suffered to remain long, it is the cause of many sarious and even hazardous diseases.

The remedy now offered to the public, is pre pared by the undersigned, from the recipe of a highly eminent practitioner in a neighboring city, and from the numerous cases absolutely cured by the use of it, he feels warranted in offering it as a specific

It is put up in packages at fifty cents, with full directions for use, accompanied by a plain treatise on the disease Prepared and for sale by on the disease Prepared and for sale by J. S. HARRISON, 256 Essex St. Salem apr 16 1839

Sin, The Democrate of every grade, Of every late, and name, and nation, Who in this city thrive by trade, Or occupy a humbler statist, Have chosen us, who know the facts, To compliment your public acts. The which, we now perform with Pleasure,

Approving every act and measure. As Chief of this our glorious party, And not as mere Chief Magistrate, We give you, Sir; a true and hearty Welcome to your native Blate.

We're also charged to represent The party, to the President.

'T'is not our duty to discuss, in such a public place as this, Things which have gone from bad to worse,

Or these which only go amina. But, as free citizens, we feel Tis due to our own party weal, La.introduce and here "Xpress..... Our faith in vour high inightiness; In whose long gilded train we see The love of pure democracy,

Your history, sir, will form a page T' enlighten every after age. Unless some Whig should hold the pen, And turn to ridicule the story, Or place before our mental ken

The whole unravell'd skein of glory. But let the rogues say what they will, The world will give you credit still, For coolness that no weal could heat, For art no talent could defeat, For prudence and for tact display d. That cast some nobler names in shade.

Though young as yet in power and station, You have so energized the nation, "hat great revulsions, once so rare Are now a common place affair, And serve to show the true intent And victulaces of government.

You have by low financial diet, Kept trade and commerce culm and quiet; And by a sort of treasury larce, Made bullish most infernal scarce.

For these, and things to Whirs so hateful, Your humble acreants feel most grateful. The power, sir, we have most to lear, Is private wealth and public cheer; Prosperity, we hold, is bad And though there's nothing in it sad, It tends to make the nation mad. it brings about strange revolutions,

And generates these false conclusions

That undermine free institutions.

In short, prosperity, we feel, Is adverse to the pulic weal; And hence our system should be made To check the natural course of trade, To tread upon toes of wealth, And three insure commercial health, The statesman that would gain renown, Must break the nation's spirits down As did your first communication Which met our cordial approbation, Although we knew each proposition (Bitter of pill of quack physician) Would meet with damning opposition.

Sir, we beheld with pride and pleasure Your efforts to disperse the treasure, And rather than in Banks to lock it, ... To put it in Tom Nokes's pecket, "Or in some Treasury sub of State, Where it might chance to circulate.

This measure, sir, we will sustain; By i alone we can maintain That large and influential class, Whose, useful labors none surpass Who carry things, as 'twere, by storm, And aid in every great reform, In them, abundant virtue lies Obedient, active, crafty, wise, With feelings of inveterate hate Against the rich, and would be great. Such men, we must support and pay; By office, or some other way. And 'twould, we think show more address, To tax the office-holders less.

To you, sir, and our friends at court, We all look up for strong support; While we, meantime, to party true, ... Will give a firm support to you. This is the upshot of our story Our interest principle and glory, And so, without more idle prate, You're welcome to your native State; That is, if we can fix and fit it, So that your excellency can get it!

of the North American College of Bealth; as ablished in Washington, D. C., January 8; 1858. lished in Washington, D. C., January FOR THE CURE OF ALL DISEASE. Japuary 8, 1838

The beautiful and simple theory of one disease and one remedy, as practised by our native Indiand advocated by the North American College of Health, is beginning now to be graerally under-stood. Thousends who have heretofore maintain. ed the necessity of a peculiar medicine for every

If disease of the head, or the feet, or the lungs liver, &c. each require a peculiar kind of medicine disease from every past of the body.

According to the Natural or Lighten theory, all

our complaints owe their origin to one cause, VI2: the shutting up of those outlets. (the skin, kidneys and howels) through which nature has intended that all corrupt and useless matters shall be carried from the hody. When these become closed, it is like shorting up of a water course, either the accumulated waters find a new outlet of the country bacomes inundated; just so with the human body; if hegislature to the Executivel and no longer unless mulair in the system, and either find year in the form of various diseases, such as fevers, rheumanning of the system and either find year in the form of various diseases, such as fevers, rheumanning of the system and either the system tism, cutaneous esuptions, gow, A gant appoplary and death ends the scene. The only sensible method, therefore, of preventing and curing disease, is to keep the hody continually purgett of an opening the sun; less and corrupt humors; and for this purpose no less and corrupt humors; and for this purpose no less and corrupt humors; and for this purpose no less and corrupt humors; and for this purpose no less and corrupt humors; and for this purpose no less and corrupt humors; and for this purpose no less and corrupt humors; and for this purpose no less and corrupt humors; and for this purpose no less and corrupt humors; and for this purpose no less and corrupt humors; and for this purpose no less and corrupt humors; and for this purpose no less and corrupt humors; and for this purpose no less and corrupt humors; and for this purpose no less and corrupt humors; and for this purpose no less and corrupt humors; and for this purpose no less and corrupt humors; and for this purpose no less and corrupt humors; and for this purpose no less and corrupt humors; and for this purpose no less and corrupt humors; and for this purpose no less and corrupt humors; and the less and corrupt humors is a less and corrupt humors. to keep the body continually purged of all the use-Purgative, because it is the only-one whose power the body. Whilst under the influence of this singular medicine, the body will be kept in a gentle but effectual perspiration; a proper discharge of urme will be experienced, the stomach and bowels will be thoroughly cleansed; and the blood will be stimulated to purify itself.

One very common objection urged by some who but partially understand the principle of curing disease by purgation, as promulgated by the North American College of Health, is that although reiterated purging will cure disease; yet that the re-peated exercising of those organs will injure or de-stroy their tone. Those who raise objections appear to forget that purging is as natural to the bowels as walking is to the feet or labor to the hands and like every other function must be duly exercis

'ed in order to retain their energies. How persons can comprehend the action of vegetable purgatives; by what my sterious process the blood is by them stimulated to deposite its impurities into the bowels; or how those organs are excited to evacuate the corrupt humors from the body ill can understand when they experience relief The gentlemen who compose the North American College of Health would therefore carnestly invite all who are suffering from disease of any kind to make a trial of the Indian Vegetable Pills. They beg leave to assure the American Public that said Indian Pill are a purgative so justly balanced, that they may be taken at all times and under all circumstances with perfect safety, and no dose, how-ever small, but will afford some relief, and no quantity, however-large, (if it he such as is required

to open the howels) can possibly injure.

Assisting Nature should be our chief study, and for this purpose, the Indian Purgative will be found the most effectual medicine ever offered to the public. Its power being always directed to the opening of those drain's Richorgh which flature carries out all impurities from the body; it

operate freely upon the howels. If this effect is obtained every other function will be duly performed. The skin and kinneys will each be stimulated to discharge their portion of impurities; and the energy, imparted by this extraordinary medicine to the blood, will enable that fluid age and deposite its impure particles into the from whence they will be carried off by the reg ular action of those organs.

One great advantage, possessed by the Indian Pills over every other medicine is, that as they cure disease Topon natural principles and suit all complaints, they are always the right medicine to be administered, and, consequently, can never be taken improperly; therefore, no time should be lost in listening to contradictory advice; the only inquiry should be, is the person sick? if so, the sooner will the patient be restored to health and usefulness. Price 25 cents per box with full directions.

A NATURAL REMEDY APPLICABLE TO OUR CONSTITUTION and competent to cure every cura-ble disease, may be found in the

INDIAN PURGATIVE PILLS,

Or UNIVERSAL MEDICINE of the North American

College of Health.

This assertion may startle the reader and appear to him absurd and ridiculous, yet nevertheless it is true. What is discase? When properly considered it is only an effort of mature to expel from the body some offending cause. We are so constituted that there is a constant tendence We are so constituted that there is a constant tendency in nature to expel or throw off whatsoever is injurious to health. This is done by arine, stool, sweat, expectoration, vomit, &c. Those are the sewers of the body throw which all the useless and decayed matter is carried off; and so long as they are kept open, so long will the body continue in health. But when from eating improper food or other cause, the bowels become costive, or sudden transitions from heat to cold, the pores of the skin become closed, or any of the other drains become between the closed. closed, or any of the other drains become obstructed, evi consequences are sure to follow. The foul matter which should escape by these outlets instead of passing off senature intended, is retained in the body, and either putrinature intended, is retained in the body, and either patrifies in the stomach, or is taken up by the absorbent vessels and added to the circulation. This impure matte floating about the system, is the blood is disease in a latent form. It sometimes agreast harmless for a while, but nature always on the alelt soon discovers the intruders and immediately commences a struggle for their expulsion It will be observed that in older to accomplish this undertaking she always directs has shorts to remove offending matters (disease.) It is not wonderful that under such circonstances the body should sink, under the conflict. As-sisting nature, should be our chief study and for this pur-pose no medicine will be found so effectual as the Indian pose no medicine will be found so effectual as the Indian Purgativa Pills, as their effects extend to every one of the natural drains. Whilst under its influence the body will be kept in a gentle but effectual perspiration. The blood will throw eff the glossor particles of its impropriety into the howels from which it will be expelled by the numative quality of the Phila. And under every circumstance, if properly persevered with, it is impossible but that every disease must yield to their powerful influence.

Thus briefly have we endeavored to addess ourselves to the understanding of the radder to show to him in eveca densed and conclusive a manner as possible the grounds and reasons why we claim Extraordinary Powers for the

-- - INGIAN PURCEY ITE PIETS, " One other fact we would particularly stamp upon the memory of the reader. It is universally known and acknowledged that the Indianage the most skillful in the knowledged that the Indiamage the most skillful in the cure of diseases, of any people'y, the world; and common sense teaches us that herbs which agging spontaneously from our native soil, if preparly combined and applied, are the best adapted to our Constitutions. Therefore when (coupled with the above) we assure the reader that the INDIAN PURGATIVE PHILS are simply a compound of four simple herbs now is universel use by the North American Indiana and we arms he is convinced of their names and the same has a convinced of their names and the same has a convinced of their names and the same has a convinced of their names and the same has a convinced of their names and the same has a convinced of their names and the same has a convinced of their names and the same has a convinced of their names and the same and the same has a convinced of their names and the same an merican Indians, and we trust he is convinced of their su-perior qualities and therefore so petent to the cure of curable discase
